2 night stay gives you an upgrade with view of the lake.

Infection Control for Dental Assistants (4 CEs)

How good are the Infection Control Techniques in your office?

Knowing your office must comply with OSHA standards is one thing; knowing how to comply with those standards is another.

This course will provide all dental team members with basic knowledge on bloodborne and airborne pathogens, disease transmission, and standard precautions. You will learn the definition and implementation of sterilization methods and guidelines of infection control, prevention of cross contamination, proper use of personal protection equipment, and equipment barriers. (4 credits)

Speaker: Janet Sell, MA, CDA

Time: Saturday, July 16, 2011
8:00 – 12:00

Check out the MDAA website for more information!

www.modaa.org
